Copper Controlled Materials

FOURTH QUARTER 1985

ITA9008(85)-4
Issued March 1986

The statistics in this publication are based on a survey of all known producers of brass mill products, copper-based powder products, and a 95 percent sample of producers of wire mill products. The figures represent total U.S. shipments of copper-base and foundry products.

A description of the survey methodology and related information may be found in the first quarter report, ITA9008(85)-1, issued June 1985.
